**RE: SWEPI LP
Engine Compliance Test Notification**

Dear Mr. Zaman / Director, Air Protection Division:

SWEPI LP (Shell) is hereby providing notification to the U.S. Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (PADEP) of upcoming engine compliance testing at the various compressor stations. The engines are subject to 40 CFR Part 60, Subpart JJJJ. Notification is being provided pursuant to §60.8(d) and PADEP's Source Testing Manual (Revision 3.3, November 2000).

Engine testing will be conducted in accordance with Subpart JJJJ, PADEP's General Plan Approval and Operating Permit Authorization, PADEP's Source Testing Manual, and the submitted test protocols. The engines to be tested during this period are summarized below:

Compressor Station	Engine ID	Engine Manufacturer & Size	General Plan Approval and Operating Permit Authorization	Location	Test Date
Jackson	2222	CAT G3516B LE, 1380 HP	GP5-59-233	Union Township, Tioga County	November 7, 2013
Breon	Generator Engine	Waukesha VRG 380, 80 HP	N/A	Sullivan Township, Tioga County	November 7, 2013

Testing at the Jackson Compressor Station (previous notification submitted 9/4/2013) was delayed because there was a lack of gas to be compressed from the wells. Shell will continue to provide notification of any deviation from the test schedule.

If you have any questions or comments concerning the information included in this letter, please feel free to contact me.

Sincerely,

A handwritten signature in blue ink, reading "Kimberly D. Coy". The signature is fluid and cursive, with a large loop at the end of the last name.

Kimberly D. Coy
Senior Environmental Engineer
